### REISSUE APPLICATION DECLARATION BY THE INVENTOR

Assistant Commissioner for Patents  
Washington, D.C. 20231

Sir:

As a below named inventor, I hereby declare that:

My residence, mailing address and citizenship are stated below next to my name.

I believe I am the original, first and sole inventor (if only one name is listed below) or an original, first and joint inventor (if plural names are listed below) of the subject matter which is described and claimed in patent number 5,891,021, granted April 6, 1999, and for which a reissue patent is sought on the invention entitled PARTIALLY RIGID-PARTIALLY FLEXIBLE ELECTRO-OPTICAL SENSOR FOR FINGERTIP TRANSILLUMINATION, the specification of which

X is attached hereto.

\_\_\_\_\_ was filed on \_\_\_\_\_ as reissue application number \_\_\_\_/\_\_\_\_\_  
and was amended on \_\_\_\_\_.

I have reviewed and understand the contents of the above-identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

[illegible]

J1054 U.S. PTO  
04/06/01

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply).

☐ by reason of a defective specification or drawing.

☒ by reason of the patentee claiming more or less than he had the right to claim in the patent.

☐ by reason of other errors.

At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening:

Each of the claims in the issued patent recites the presence of an adhesive layer on the "concave surface of said cradle" when in fact the adhesive layer may be placed on the flexible, initially substantially planar web-like support structure, as recited in the specification at Column 4, lines 32-36.

All errors corrected in this reissue application arose without any deceptive intention on the part of the applicant. As a named inventor, I hereby appoint the following attorney(s) and/or agent(s) to prosecute this application and transact all business in the United States Patent and Trademark Office connected therewith.
